

NEW LASER WAGON

VERSATILITY

► Now there are three Laser wagons – L, GL and luxurious Ghia that offer generous levels of comfort, driving style and above all, the space you want in a wagon.

PERFORMANCE

► Most people expect a lot from a wagon and the Laser is designed to perform. The L and GL models have the willing 1.6L OHC engine fitted as standard. On Ghia wagon, the 1.6L Electronic Fuel Injection engine is

standard and provides extra performance when you're carrying a load, or touring with all the family on board.

4-speed manual transmission is standard on Laser L wagon, while 5-speed manual is

standard on GL and Ghia. The popular 3-speed T-Bar automatic transmission is available as an option on GL and Ghia models.

Independent suspension provides confident control and cornering and the rack

and pinion steering responds swiftly and simply to your commands.

ROOM TO MOVE

► Taking the kids to school and back every day, doing the shopping or simply getting away to the beach for fun. These are just some of the many uses of the new Laser wagon. GL and Ghia have the added advantage of 50/50 split fold rear seatbacks so the whole or part of the rear load area can be extended as you wish. Test drive new Laser wagon today. You'll rave about it!

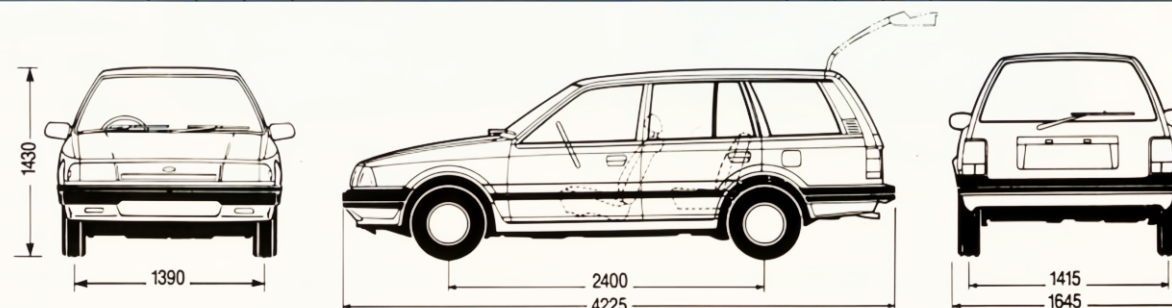

Something to RAVE About!
